

FRANCE CORPORATION

**Can a foreign Person or Corporation form a Delaware Corporation or LLC?
Yes.**

Delaware does not discriminate against non-citizens inside or outside the United States. Many Delaware Corporations and LLCs are formed by foreign persons.

France Corporation is domicile in Delaware and is part of the US Corporation.

Delaware provides substantial flexibility for parties in international commerce to form business entities other than corporations, including limited liability companies and limited partnerships that may be appropriate for specialized situations.

Delaware is known as a “tax haven” to incorporate companies because of its light taxation. There is no sales tax in Delaware, it doesn't matter if a company's physical location is in the state or not; no in-state purchases are subject to tax in Delaware.
